ANDREA CAPPELLUTI

Rome (IT), 10/05/2002 |+39 3397888853 | andreacappelluti7@gmail.com

EDUCATION

Master's Degree, LUISS Guido Carli **Rome, Italy**
Attending: ***Data science and management*** *(ENG)* 09/2024 – 10/2026

***Relevant Courses*:**
Advanced Statistics (29/39), Econometrics (30L/30), Machine Learning (28/39), Data Privacy and Security (27/30), Data Visualization (28/30), Technology Entrepreneurship (30L/30).

Erasmus+ program, TalTech University **Tallinn, Estonia**
09/2025 – 02/2026

Bachelor's Degree, Università degli studi Roma tre **Rome, Italy**
Economics e Big Data *(ITA)* 09/2021 – 07/2024
Final Grade: 102/110

***Relevant Courses*:**
Databases and Big data (29/30), Statistics for Big data (26/30), Statistical Learning (30/30), Machine learning and data processing (28/30), Digitalization of the labor market (30/30), Economics of digital markets (28/30)
***Thesis Title*:** Implementation of Artificial Intelligence in Online Platform: Impacts, Opportunities and Challenges.
***Thesis Subject*:** Economics of Digital Markets – Thesis Advisor: Eleonora Pierucci

WORK EXPERIENCE

Data Science Intern, Basco&T Consulting 02/2026 – 04/2026

1. Contributed to the development of **Mobility Lens**, an integrated analysis and visualization platform combining public transport data with real estate pricing across Milan, designed to translate complex datasets into clear and actionable strategic insights.
2. Built data pipelines and interactive dashboards to visualize mobility patterns and real estate market trends, enabling data-driven decision-making and supporting the delivery of strategic reports to clients in the public transport sector.
3. Built a RAG system, to provide personalized reports and evaluations in the real estate market, including information about public transport and composite indicators of the neighborhood.

Customer Service Specialist, MSX International *04/2026 – Present*

1. Maintain and process large-scale vehicle databases through data cleaning and quality control, optimizing operational workflows and minimizing service downtimes.
2. Analyze customer data to identify needs and deliver tailored solutions to Ford customers, leveraging data-driven insights to enhance customer satisfaction and service quality.

OTHER CURRICULAR ACTIVITIES

Multi-Agent System for Natural Language Analysis on Public Datasets – Reply Project: 03/2025 - 04/2025

1. Developed an AI-powered multi-agent system to transform natural language questions into automated data analysis and visualizations, using large language models (GPT-4.1), Python, and Streamlit.
2. Engineered an architecture using OpenAI's Agent SDK and LlamaIndex to interpret user queries, select appropriate public datasets, and dynamically generate and execute Python code (pandas, matplotlib).
3. Delivered a system that returns both narrative insights and graphical outputs, designed for scalable, self-service civic analytics to democratize access to complex data.

I hereby authorize the use and processing of My personal data in compliance with the applicable laws and regulations.

Sales Forecasting System for Retail Analytics – Unieuro Project: 03/2025-04/2025

1. Led a data science project to predict 2024 sales volumes for key product categories (smartphones, vacuum cleaners) by combining business intelligence, statistical modeling, and machine learning.
2. Conducted extensive data preprocessing, data cleaning, and feature engineering to extract relevant signals such as seasonality, promotions, and historical demand trends.
3. Developed interactive dashboards using Power BI and compared multiple machine learning models (XGBoost, Gradient Boosting, Random Forest) to deliver actionable sales forecasts.

SKILLS, ACTIVITIES & INTERESTS

Languages: Italian: Native | English: C1 | Spanish: A2

IT Skills: Python, R, Stata, Orange Data Mining, SQL, Power BI, Tableau, MSC office suite, Supabase

AI Skills: Claude Code, Gemini CLI, Google AI studio, LLM APIs, Retrieval Augmented Generation (RAG)

Certificates :

- **Anthropic:** Introduction to Model Context Protocol, AI Fluency: Framework & Foundations
- **Codecademy:** How to Analyze Business Metrics with SQL, Learn Statistics with R, BI Dashboards with Power BI, BI Dashboards with Tableau, Learn Prompt Engineering
- **Study section E-Learning:** Python(advanced)

Activities and Interests:

- Former Pro Basketball player
- Hiking and trekking photographer
- Sport science enthusiast

I hereby authorize the use and processing of My personal data in compliance with the applicable laws and regulations.
